

Personal Mission Statement

The goal of our classes here at Columbus Tactical is to train people to be better martial artists; both in the sense of greater martial skill for the purpose of the ability to defend oneself in a real-world scenario as well as to create better people through the improvement of mind, body, and spirit. Our concern is with reality-based self-defense and developing the skill necessary to adequately protect yourself and your loved ones in any scenario; as well as improving our students as better people to help stop fights before they start. Our kickboxing course incorporates all the elements of the martial arts taught in the adult program to create a high intensity and fun workout session. We strive to provide the best martial art instruction in the Columbus area for a fantastic price to teach people the wonderful skill of self-defense and all willing parties will be welcomed into our school.
